

Accessibility

STATEMENT OF COMPLIANCE

Mondeca is committed to ensuring digital accessibility for people with disabilities. We continuously improve the user experience for everyone and apply the relevant accessibility standards.

CONFORMANCE STATUS

The Web Content Accessibility Guidelines (WCAG) define requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. Mondeca is partially compliant with WCAG 2.0 Level AA. Partially compliant means that some parts of the content do not fully comply with the accessibility standard.

Mondeca has integrated accessibility as part of the design, development, and testing of its software and is fully committed to improving accessibility compliance with each new release.

FEEDBACK

We welcome your feedback on the accessibility of our applications. Please let us know if you encounter accessibility barriers with any of our products via support@mondeca.com.

TECHNICAL SPECIFICATIONS

The accessibility of Mondeca's applications is based on HTML, WAI-ARIA, CSS and JavaScript to work with the particular combination of web browser and any assistive technologies or plug-ins installed on your computer.

These technologies are relied upon to comply with the accessibility standards used.

ASSESSMENT APPROACH

Mondeca assessed the accessibility of ITM, CAM, and KB following a self-evaluation approach.
